## Planet Rehab: Green Acres Expedition Town Hall

La Verne, CA– Planet Rehab will present their Green Acres Expedition Town Hall, taking place on May 12 from 6:00 p.m. to 7:00 p.m at the University of La Verne’s Quay Davis Executive Board Room featuring an informative conversation with Board Member, Skye Rummer.

Planet Rehab is proud to bring their Green Acres Expedition Town Hall to the University of La Verne campus for the first time. Having been established in neighboring city, San Dimas, California, this is a monumental moment in reconnecting with their founding community since the transitioning of their Headquarters to Bocas del Toro, Panama. The Green Acres Expedition Town Hall will explore the opportunity for travelers to immerse themselves in an eight day expedition that will engage them in activities that directly impact the state of our planet. Activities include mapping the biodiversity of the rainforest, learning about the sustainable production of organic chocolate, and dolphin sightseeing and snorkeling.

Admission to this event is free. Tickets can be located through the Eventbrite link below.

### **About Planet Rehab:**

Planet Rehab connects people across the world to collectively bring awareness of the state of the planet and the urgent need for planet conversation. It’s history that dates back to 2002 and marks several accomplishments for Planet Rehab, including their years of preserving an animal sanctuary in San Dimas, California, kick-starting their Just One Tree Reforestation project that takes donations to plant saplings of the endangered Almendro trees, and maintaining their Green Acres Expedition that offers travelers to visit their headquarters in Bocas del Toro, Panama to immerse themselves in an educational journey.
